

The Australian Academy of Hypnosis™
Training real hypnosis since 1996

Styles and Types of Hypnosis

Rick Collingwood established The Australian Academy of Hypnosis™ in 1996 after he recognised that many Hypnosis Training Institutions mostly teach theory or hypnosis hybrids such as NLP, or they have a significantly academic approach within their training curriculum; offering either none, or very little, practical training in actual trance inductions. During the past fifteen years, The Australian Academy of Hypnosis™ has now trained more than 1500 students nationally and internationally and many of them are very successful professional hypnotherapists.

Rick first learned Ericksonian Hypnosis in 1992 and I have practised as a full time professional hypnotist ever since. He has travelled the world studying and researching Traditional Hypnosis, Rapid Inductions and Mesmerism. What the academy brings to the training arena are real hypnosis techniques that works on a physical, mental, emotional, and spiritual level and it is these techniques that have taken Rick to the top of the profession. When Rick trains he doesn't hold anything back. He doesn't keep secret techniques to myself and he will teach you all that he knows and how to apply it to your own life and the lives of your clients.

This is hands on training and you will learn your theory from the extensive training manuals provided to you before you begin the six day practical training component. During the training you will be inducing trance under supervision from the first day and Rick will ensure that you get it right. After that, mastering what we teach to you will be in direct proportion to your passion for hypnosis and the practice you put into what you learn. After the completion of your training you will have open email access to the academy. HYPNOSIS TRAINING

The Australian Academy of Hypnosis™

Training real hypnosis since 1996

Styles and Types of Hypnosis

Some of the more common styles of hypnosis or hypnotherapy are...

Ericksonian Hypnosis: This is a therapeutic model of hypnosis created by the American Psychiatrist Milton Erickson. Ericksonian Hypnosis is most effectively utilised by a skilled and experienced Psycho Therapist. Ericksonian hypnosis is commonly used during therapy, but does not usually require or effect deep trance states. After a relaxed state has been achieved by the subject, direct suggestion is replaced by ambiguity and a lot of metaphor is often used during the therapy sessions; which will usually be about 15 to 20 in number.

NLP or Neuro Linguistic Programming: Regardless of what persistent slick marketing efforts may try to have you believe; NLP IS NOT HYPNOSIS. NLP is supposedly the study of excellence and it does have some interesting and no doubt effective strategies. NLP also offers a lot of insight into human behaviour and the mind. However, because an NLP training institute may offer NLP training under the guise of it being hypnosis that is frequently claimed by its proponents. This is amply demonstrated by the fact that after more than a decade of clinical trials and studies at respectable academic institutions; no evidence could be found to back up the many claims made about the power and effectiveness of NLP. If you are learning NLP, you are not learning genuine hypnosis.

Traditional Hypnosis: Traditional hypnosis is direct hypnosis. It is genuine hypnosis, the type of hypnosis that despite academic opinion can make many individuals do things that are against their moral patterning or usual personality. Traditional hypnosis can be blended with Mesmerism, NLP and Ericksonian Hypnosis to create a very powerful therapeutic modality that we call "Hypnosis Field Therapy™".

This intensive demonstrational and hands on Six Day Power Hypnosis and Hypnotic Fascination training will teach you genuine traditional hypnosis and its uses. You won't be bogged down with theory you will learn techniques and how to do genuine and effective hypnosis from one of the world's foremost hypnosis trainers.

You will experience hypnosis demonstrations' and partake in lots of supervised hypnosis induction practice.

This hypnosis training is suitable for any adult who wants to become a clinical hypnotherapist, those seeking self improvement and a better understanding of the human mind and human behaviour, and hypnotherapy and other health practitioners who want to learn deep trance induction skills. The curriculum is taught in an easy to learn practical format that ensures all students of The Academy become effective hypnotists. The training is comprised of both metaphorical Ericksonian styles, Mesmerism, Direct and Rapid Authoritative Inductions and Hypnotic Fascination. This is Six days of hypnosis demonstrations, instruction, and supervised practice.
