HYPNOSIS TRAINING

Learn How To Induce Real Hypnosis and apply Mesmerism

What did you REALLY learn during your previous hypnosis training?

True hypnosis has always involved much more than learning a few induction techniques that get half your clients into a medium to light trance state.

There is much more to genuine hypnosis than some visualization, confusion techniques, and progressive muscle relaxation, Milton Erickson or NLP Techniques that are passed off as hypnosis.

This is real hypnosis training in every sense of the word.

You will learn how to silently hypnotise and influence others with your eyes, your hands and your fingers!

You will learn all you need to know to be an effective clinical hypnotist and how to overcome your own self limiting patterns and move beyond fear and negativity.

Dr Marco Paret will teach you how to use genuine Mesmerism (energetic transference and influence) and how to combine it with traditional hypnosis.

Rick Collingwood will teach you many new hypnosis techniques – What type of trance to use for what situation and – How to quickly induce any subject into deep trance.
