What YOU will learn from US!

The Australian Academy of Hypnosis™

The Australian Academy of Hypnosis™ was established by Rick Collingwood in 1996 after he recognised that many of the Australian Hypnosis Training Institutions usually teach mostly hypnosis hybrids such as NLP, or adopt a significantly academic approach within their hypnosis curriculum, offering either none, or very little, practical training in actual trance inductions. The Australian Academy of Hypnosis™ has now trained more than 1200 students, and many of them have created very successful hypnotherapy practices both nationally and internationally.

Academia Alone A Good Hypnotist Does Not Make!

For this reason my training is formatted and taught in an easy to learn practical method that ensures that all students of The Academy become effective hypnotists. The training is comprised of both metaphorical Ericksonian styles Mesmerism Direct and Rapid Authoritative styles and Hypnotic Fascination. Six days of hypnosis demonstrations, instruction, and supervised practice.

You will pre learn the true history, theory, and mechanisms before the training commences by the immediate emailing to you of the comprehensive training manuals as soon as you complete the registration process.

This unique hypnosis training is second to none. So much so that I guarantee you will acquire a complete understanding of hypnosis coupled with the ability to confidently and correctly induce the trance state in others.

The total cost of this Six Day Power Hypnosis & Advanced Hypnosis training including accommodation is **US\$2700** or **US\$2000** without accommodation if fees are paid in full upon registration. Otherwise US\$2900 or \$2200 without accommodation. A deposit of \$1000 is required upon registration acceptance, and the balance payable of \$1900 with accommodation or \$1000 without accommodation is required no later than 10 days before your training commencement.

If you wish to take advantage of this unique opportunity to effectively learn these valuable and unique hypnosis skills from one of the world's foremost Hypnosis Trainers then please don't delay, as positions are limited and no exceptions can be made.

Upon completion of the training and the passing of the academy examination all students are awarded a **"Practitioner Certificate of Clinical Power Hypnosis"** and an additional **"Certificate of Advanced Hypnosis"** from The Australian Academy of Hypnosis.

Your Security: I have been very long established and have trained hypnosis in Australia since 1996. The Australian Academy of Hypnosis is Australia's largest hypnosis training institution. I have also had a presence on the internet since 1995, initially at hypnosis-hypnotherapy.net, and at www.mindmotivations.com, the world's largest hypnosis and self help website, since 2002. If you type Rick Collingwood or Rick Collingwood Hypnosis into Google or any other search engine you will find tens of thousands of listings for my name, but you won't find one negative appraisal regarding me or my training personally or professionally. For peace of mind I would encourage all intending students to do this before committing to this training.

HYPNOSIS TRAINING

An Introduction From Your Hypnosis Trainer

Rick Collingwood

Hello, and thank you for your interest in my hypnosis training.

During my extensive hypnosis career I have had the pleasure of personally assisting tens of thousands of individuals, and also training more than 1200 academy students in the proficient and correct uses and methodologies of all types of hypnosis including Mesmerism; Ericksonian Hypnosis; Traditional Hypnosis; Hypnotic Fascination, and Authoritative Rapid Induction Hypnosis.

Every student who completes my training comes away fully skilled in all aspects of the conducts of Hypnosis, Mesmerism, and trance induction. Many students use their new found skills in conjunction with their other physical and mental health modalities, whilst others venture into private practice as a 'Clinical Hypnotherapist'. I take great pride seeing students from the Academy gain an understanding of the human mind and how to access the deepest often un-accessible realms of consciousness; and then use those skills to transform their own lives and the lives of others often in quite remarkable ways.

I have a commitment and passion for hypnosis and how I train it. My ideal is to help every student learn as much as I can teach them so they can then become, by virtue of their own hypnosis skills, a proud testament to the academy.

All change begins in your mind; I look forward to our first meeting.

Kind Regards

Rick Collingwood

Hypnosis Training – What Are You Really Learning

Most people and indeed many practitioners of Hypnotherapy are not aware that there are many different styles and variations of hypnosis; so before you choose which academy you are going to study hypnosis with, you should also consider exactly what style of hypnosis that you want to learn and what you intend to use it for.

Some of the styles of hypnosis or hypnotherapy are:

Ericksonian Hypnosis:

This is a therapeutic model of hypnosis created by the American Psychiatrist Milton Erickson. Ericksonian Hypnosis is most effectively utilised by a skilled and experienced Psycho Therapist. Ericksonian hypnosis is commonly used during therapy, but does not usually require or effect deep trance states. After a relaxed state has been achieved by the subject, direct suggestion is replaced by ambiguity and a lot of metaphor is often used during the therapy sessions; which will usually be about 15 to 20 in number.

NLP or Neuro Linguistic Programming:

Regardless of what persistent slick marketing efforts may try to have you believe; NLP IS NOT HYPNOSIS. NLP is supposedly the study of excellence and it does have some interesting and no doubt effective strategies. NLP also offers a lot of insight into human behaviour and the mind. However, because an NLP training institute may offer NLP training under the guise of it being hypnosis that is frequently claimed by its proponents. This is amply demonstrated by the fact that after more than a decade of clinical trials and studies at respectable academic institutions; no evidence could be found to back up the many claims made about the power and effectiveness of NLP. If you are learning NLP, you are not learning genuine hypnosis.

Traditional Hypnosis:

Traditional hypnosis is direct hypnosis. It is genuine hypnosis, the type of hypnosis that despite academic opinion can make many individuals do things that are against their moral patterning or usual personality. Traditional hypnosis can be blended with NLP and Ericksonian Hypnosis to create a very powerful therapeutically modality that we call “Hypnosis Field Therapy™”.

The five day Power Hypnosis and Hypnotic Fascination training will teach you the true history of hypnosis and its uses. All of the effective means of inducing the hypnotic trance state, including rapid and instant inductions and also how to correctly utilise hypnosis for therapeutic purposes and also for self improvement. You will experience hypnosis demonstrations’ and partake in lots of supervised hypnosis induction practice.

Tanya Buktenica – Counsellor, Psychotherapist

I found this course to be invaluable. Information, techniques and the practical application of hypnosis were very well constructed, well explained and demonstrated. The self assessments were a bit daunting but very effective as a doubling up of our new knowledge. I would advise anyone who wishes to help people therapeutically to do this course. Thank you very much. *Patricia Barker – Counsellor*

I was delighted with the presentation of the hypnotherapy course that John delivered, I had always been veryt skeptical about hypnotherapy being a healing modality. John is very lucid and comfortable about instructing and practicing hypnotherapy. He gave us plenty of acutal practice time and by the end of the second day I was beginning to feel quite comfortable with putting someone into a trance. Thanks and good on you John. *D.F.*

I found the course to be concise and informative. Learning hypnosis from some of the best in the field is such a privilege. We got a lot of hands on practise and a great chance to learn from the experience of some great hypnotherapists. Thankyou. *Danielle -Acupuncturist*

A scientific and spiritual journey offering clarity and peace of mind and also the ability to now give the same to others. *Kim Davis*
